*The Debt of the Cemetery is kept separately from the ordinary City Debt, and provision is made for the payment of the same by the proceeds of the sale of lots in the grounds, as will be seen by the following section from the Act obtained from the Legislature:—

SECTION 4. "The proceeds of sales of lots or rights of burial in said Cemetery shall be paid into the City Treasury, to be kept separate from any other funds of the City, and subject to the order of said Commissioners, and such proceeds shall be devoted to the liquidation of the debt incurred in the purchase of the land for said Cemetery, and to the improvement and embellishment thereof, as aforesaid, under the direction of said board of Commissioners. And no other moneys shall be appropriated from the City Treasury by the City Council for such improvement and embellishment."

JOSEPH W. DUDLEY, *City Treasurer.*

Roxbury, February 12, 1858.

CITY OF ROXBURY, FEBRUARY 15, 1858.

The undersigned, Joint Standing Committee on Accounts, in pursuance of the provisions of the eighth section of the Ordinance entitled "An Ordinance establishing a system of Accountability in the Expenditures of the City," requiring them to audit the Account of the City Treasurer at the close of each municipal year, and as much oftener as they may deem expedient, hereby certify that we have examined and audited the within Account of JOSEPH W. DUDLEY, City Treasurer, and find the same correctly cast, and all payments and expenditures therein charged against the City, are sustained by the necessary vouchers.

We find that there has been received into the Treasury, at sundry times within the year ending January 31, 1858, the sum of *two hundred fifty-four thousand one hundred forty-two and 17-100 dollars*, which, with the balance on hand January 31, 1857, of *twenty-one thousand three hundred sixty-nine and 74-100 dollars*, makes a total receipt of the year of *two hundred seventy-five thousand five hundred eleven and 91-100 dollars*; and that there has been paid out from the Treasury during the same period, the sum of *two hundred fifty-one thousand seven hundred fifty-one and 92-100 dollars*, leaving in the Treasury January 31, 1858, a balance of *twenty-three thousand seven hundred fifty-nine and 99-100 dollars*.

The Annual Reports of the Superintendent of the Almshouse, and Almshouse Physician, represent the condition of that estab-

lishment as satisfactory. The number of permanent inmates,—twenty-five being the average through the year,—does not keep pace with the increase of population.

Owing to the financial embarrassments of the past season, which have thrown many men out of employment, an unusual number of persons have applied for lodgings and temporary relief. It is gratifying to know that the health of the inmates has generally been good. Only two deaths have occurred in the course of the season.

The Superintendent and the Physician have been diligent and faithful in the performance of their respective duties. The inmates have been kept under proper regulations, while no reasonable indulgence or comfort has been withheld.

During the past year, the Overseers of the Poor thought it advisable to appoint, during the inclement season, an Agent to receive applications for relief, investigate cases of pauperism, and under the direction of the respective Overseers, administer such relief as might be deemed expedient. This plan was adopted after mature consideration, with a view to economy, and also to introduce a more uniform and judicious mode of giving assistance, than has heretofore been adopted, by administering outside relief in the different wards. It is found on trial to work well. The Agent has discharged the duties of his office to the full satisfaction of the Board—and the results fully equal the expectations which were indulged when the plan was adopted.

JOHN S. SLEEPER,

Chairman of Overseers of the Poor.

REPORT

OF THE

SUPERINTENDENT OF THE ALMSHOUSE.

ROXBURY ALMSHOUSE, JANUARY 25, 1858.

To the Board of Overseers of the Poor of the City of Roxbury :

GENTLEMEN,—In conformity to custom, the undersigned would respectfully submit to you the annual report of the Almshouse, accompanied with the few following statements:—

The number of inmates in the house at the commence- ment of the year, February 1, 1857, was	.	.	26	
Roxbury people admitted during the year	.	.	4

Now remaining in the house	.	.	.	.	24
Average number in the house	.	.	.	.	25

Four of the number now in the house belong to West Roxbury, and their support is severally charged to that town.

State Paupers have been admitted for temporary relief. Owing to the suspension of many kinds of business the past few months, there has been a large number out of employment, who have applied for medical advice to the Physician. Dr. Streeter has been punctual in his attendance, and with good results; always cheerful, and ready, when called upon, to come to the relief of the sick and suffering.

For a further statement of the medical department, please see Physician's report.

Cabbages, turnips and all other vegetables raised in abundance for the use of the house.	

Whole number accommodated with lodging and food the past year has been 228.

Many have applied while intoxicated, and I did not feel it my duty to assist them in any way whatever.

The health of the inmates the past year has generally been good ; only two deaths have occurred, one of these, an aged woman, who had been an invalid for many years, and died with dropsy ; the other was an aged man, brought to the house with palsy, and lived but two days after being admitted.

Several persons brought to the house during the year too sick to be sent to the State Almshouse, have been cared for until they were well enough to be sent away with safety.

Owing to the constant tillage for years, the soil has become exhausted, and does not produce well for the amount of manure and labor laid out upon it. In my opinion, it would be good economy for the City to seed it down to grass for a few years, and hire a few acres of land in the vicinity of the Almshouse, if such can be procured, for the raising of vegetables.

Respectfully submitted by your obedient servant,

EZRA YOUNG,
Superintendent of Almshouse.

R E P O R T

OF THE

PHYSICIAN TO THE ALMSHOUSE.

To the Board of Overseers of the Poor :

GENTLEMEN,—In submitting the Annual Report of the Medical Department of the Almshouse, it is gratifying to state that the general health of the inmates has been good, especially when we bear in mind that the larger number of them are advanced in life, and more or less infirm.

Twenty-eight persons have received medical attendance at the house during the year. Of this number, six were temporary inmates, being too sick at the time of admission to be carried to the State Almshouse ; but, as soon as their condition would justify it, have been removed to the Almshouse at Bridgewater, or discharged. Three persons have received medical attendance, more or less protracted, outside the Almshouse, until they were able to be removed. But a small proportion of the sickness has been of an acute character. In the early part of the year, there were six cases of scarlet fever,—five children, one adult,—and one case of typhoid fever. Two deaths have occurred in the house during the year, one of apoplexy and one of dropsy, both aged persons. One of these persons was brought to the house in a helpless condition, from an attack of apoplexy, and died two or three days after admission.

In closing this brief report, I cannot refrain from referring to the unwearied care and attention of the Superintendent and his wife, to the welfare of those committed to their charge, as deserving the highest commendation.

Respectfully submitted,

JOSEPH H. STREETER,

Physician to the Almshouse.

Roxbury, Jan. 31, 1858.

R E P O R T

OF THE

CHIEF ENGINEER OF THE FIRE DEPARTMENT.

ROXBURY, FEBRUARY 1, 1858.

To the Honorable Mayor, Aldermen and Common Council :

In accordance with section six of Ordinance No. 34, regulating the Fire Department, I submit to you my Annual Report, from February 1, 1857 to February 1, 1858.

The Department is full in point of numbers and the members are prompt and energetic in the discharge of their duties, and cheerfully comply with all the rules and regulations. The apparatus is in good order.

I regret that a new house was not built for the better accommodation of Engine No. 1, and Hook and Ladder No. 1. The favorable offers made to the Committee on the Fire Department, the last year, will probably not be again renewed. The present building is old, leaky, and wanting in every convenience required for the proper storing and care of the apparatus now kept in it. The remarks in my report of last year fully apply to this building this year. I would recommend that a new building of brick be erected this year on the same site as the old one; and agreeably to the plans submitted to the Committee last year.

The house occupied by Hydrant Co. No. 1, near "Waitt's Mills," is also deserving of your early attention. The present locality is not the proper one. The house stands over a running stream of water, which keeps the hose very damp, and it is almost impossible to properly dry and oil the same in cold weather. The house has been painted the past year.

Engine House No. 7 stands on land belonging to the Providence Railroad Company, and last season it was thought the City would

be required to remove the building ; when it is done, I would recommend that an addition be made to the house, for at present, it is not long enough for the apparatus. This house has been painted the past year.

Six hundred feet of new hose have been purchased for the Department. Of the forty-one hundred feet now on hand, a portion is old, and not worth repairing.

Three new Reservoirs have been built the past year of large capacity ; one at the corner of Parker and Alleghany Streets, one at the corner of Warren and Waverly Streets, and one on East Street, opposite Norfolk Avenue. I would recommend that in future when reservoirs are built, they should be made to contain at least 30,000 gallons of water.

Eight Hydrants have been constructed the past season, viz., two from the Cochituate Pipes on Tremont Road, one at the corner of Tremont and Sudbury Streets, and one at the corner of Tremont and Ruggles Streets, six from the Jamaica Pond Pipes, viz., one in Ruggles Street, opposite the Catholic Church, one at the corner of Vernon and Belmont Streets, one at the corner of Vernon and Washington Streets, one at the corner of Davis and Webber Streets, one at the corner of Davis and East Streets, and one on East Street, opposite "Stubbs' shop." When the pipes of the Company are laid over a greater extent of territory, I would recommend the insertion of more hydrants. By the provisions of the act of incorporation of the Company, the City were allowed to insert ten, six of which have been inserted, the remaining four have been paid for. The head or source of supply from Jamaica Pond is not as great as I could wish, still they will be of great service to the Department.

Our Department is smaller than any in this vicinity. Nearly every town around us possesses a larger Department than Roxbury ; as wooden buildings increase in our city, (and more than two hundred have been erected the past year) the danger of fire is increased, and I would recommend that an additional Engine be placed on East Street, at or near Eustis Street.

In all the expenditures for the Fire Department, a due regard has been had to economy, and nothing has been purchased but what was absolutely required for the use of the Department. The amount expended for Reservoirs and Hydrants has been large, but will prove of more benefit to the City than a like sum expended in any other way.

During the term of office yet remaining to me, it shall be my earnest endeavor to make the Department worthy the confidence of the City.

The accompanying documents show the number of fire alarms

during the year, with the loss and insurance as far as could be ascertained ; names of members of Board of Engineers ; members of the Department, age and place of residence, pay of members, condition of houses and apparatus, list of hydrants and reservoirs and the rules and regulations.

The Department have been called out the past year 59 times, viz :—

From actual fires within the City	.	.	.	27 times.
“ false alarms	.	.	.	22 “
“ fires out of the City	.	.	.	10 “
Loss by fire, \$28,025 00. Insurance, \$17,100 00.				

Last year the Department was called out 78 times, viz :—				
From actual fires within the City	.	.	.	33 times.
“ false alarms	“	“	.	26 “
“ alarms from out of	“	.	.	19 “
Loss by fire \$35,785 00. Insurance, \$16,446 00.				

Respectfully submitted.

SAMUEL F. TRAIN,
Chief Engineer.

Four hundred and fifty-five persons have been provided with lodgings during the year.

The Police Department the past year, and as now organized, consists of myself, eight Assistant Marshals, and eight Night Watchmen. Two of the Assistant Marshals are on duty every night, and six are on duty during the day ; making an increase of four men more on duty at night than we had at the commencement of the year.

In consequence of repeated burglaries committed in the night time, which caused much alarm to the inhabitants of this City and neighboring towns, in October last the Board of Aldermen increased the night watch to forty men, for a number of weeks, which force has been discontinued ; through the efforts of the police, five of the burglars have been arrested, convicted, and are now serving out their sentence in the State Prison.

The Marshal and Assistants have acted as truant officers, and all communications from teachers of our public schools have been promptly attended to, and many children returned to school who would not have attended had they been permitted to carry out their intentions.

The usual amount of service has been rendered by the police in abating nuisances, attending fires, public meetings, &c., all of which has been done by them without extra expense to the City, and which does not appear in the Reports of the doings of the Department.

The same number of Special Police were on duty during the fruit season that were employed the preceding year, and with equally as good results.

The regular police have been diligent in causing a proper observance of the Sunday Law, and all persons known to keep open their shops or places of business in violation of said law, have been prosecuted for the same.

In regard to arrests, you will readily perceive that intemperance, (either directly or indirectly) exceeds all other causes of violations of the statute or criminal law. There have been a number of prosecutions for violations of the liquor law, the most of which have been appealed from the Police Court to the Court of Common Pleas, for a trial by jury. In some instances the parties appealing have been convicted, while most of them have been discharged or their cases continued.

Since the instruction from the Board of Aldermen relative to the enforcement of the Liquor Law, a number of persons, by their voluntary act, have notified me of their intention of abandoning the traffic of liquor selling ; others have been prosecuted and convicted in the Police Court, from which they have appealed.

There are a large number of places in the City where we have reason to believe intoxicating liquors are kept for sale, but the patrons of those places are *few* who will come forward and testify to their purchasing, or being present at any sale, or in any way having knowledge of any violation of law relating to the same; and many of those who are summoned before the Police Court to testify in liquor cases, before a trial can be had on an appeal, will be in parts unknown, or beyond the jurisdiction of the Court.

The police have discharged their duties, generally, satisfactorily, and exhibited a willingness on their part to do all in their power to subserve and promote the interests of the City. Many of their duties have been onerous and unpleasant, but they have been performed willingly, and, it is hoped, to the satisfaction of the public.

Respectfully submitted.

A. S. PARKER,
City Marshal.

REPORT

OF THE

COMMISSIONERS OF FOREST HILLS CEMETERY.

IN conformity to the fifth section of "An Act relative to a Public Cemetery in the City of Roxbury," the Commissioners respectfully submit their

TENTH ANNUAL REPORT.

1. **LABOR.** The amount of labor performed on the grounds of the Cemetery the last year, does not vary essentially from that of the preceding. In the various departments of the work, thirty-eight men, upon an average, were employed during ten months of the year, and about nine the remaining two months.

2. **LOTS PREPARED.** One hundred lots have been trenched, graded and sodded, the bounds defined by stone posts, and the borders adorned with trees and shrubs.

3. **FIELD OF EPHRON.** A large amount of labor has been performed upon and about that portion of the Cemetery called the "Field of Ephron," carrying out the design and extending the operations initiated the previous year. The 200 graves previously trenched, have been sodded, and 236 additional graves have been trenched and prepared for sodding. In order permanently to designate the graves in this portion of the Cemetery, stones of suitable and uniform size, prepared for the purpose, with numbers distinctly engraved upon them, have been affixed to 312 graves. The old wall, on the northwesterly side of the "Field of Ephron," has been removed, and a fence corresponding with the other part of the Cemetery fence has been built. The avenue which was opened and in part made the previous year, has been continued in a somewhat circular course, so as to terminate at its entrance on Mulberry Avenue, near the Egyptian gateway. To accomplish this work, it was necessary to cut through a large rock a distance of seventy-five feet, and the whole is now completed. The stone thus removed in grading the avenue, was found very convenient, but a few yards distant, in constructing the paths be-

tween the ranges of graves ; the item of greatest expense in the opening of the avenue becoming thus a matter of economy in the grading of the paths.

4. AVENUES AND PATHS. The work performed on avenues and paths the last year has been more than an average of former years. The loam has been removed from 2000 feet of the avenues and 955 feet of the paths, and the same replaced with stone and gravel.

5. MONUMENTS. The number of monuments erected the last year has, for obvious reasons, been somewhat less than for several years previous. And yet important additions have been made in private lots to these enduring records of respect for the departed. Besides many smaller slabs and scrolls, nineteen monuments have been erected.

6. FENCES. Fifty-five lots have been enclosed with iron fences.

7. INTERMENTS. The number of interments the past year is less by fifty-three than in the previous year, amounting, in private lots and in the Field of Ephron, to 422.

8. LOTS SOLD. The number of lots sold during the past year is ninety-two ; the average size of the lots $385\frac{36}{100}$ feet. This number is small compared with the sales of several preceding years, and, without taking into account the size, might indicate a falling off of receipts ; but the size of the lots being greater than in any former year, makes the receipts compare favorably with the receipts of the last five years, while they exceed the average receipts of the previous nine years. The amount of land embraced in these ninety-two lots would make a little over 118 lots of the common size of 300 feet each. There have been sold also 163 graves in the "Field of Ephron ;" a larger number than in any previous year.

9. LOTS FINISHED. There are now on hand thirty-eight lots finished and ready for sale ; besides fifty-five other lots which have been trenched, ready to be finished as soon as the season will permit. A large and beautifully situated lot on Cypress Hill, between Cypress and Poplar Avenues, has been purchased by the Cemetery Association of the Boston Fire Department, which has been trenched and graded, and will be put in order for their use early in the spring.

10. AN UNMARKED GRAVE. While the men employed upon the avenue which encircles the summit of Consecration Hill, were removing loam near the top of the hill, about four feet from the surface of the ground, they came upon two human skeletons, or, more properly, upon the bones of two once human beings.

The two sets of bones were lying side by side, separated only by a few inches from each other. They seemed to have been packed in wood ashes, a large quantity being found with the bones. In the opinion of a physician, who was present soon after the exhumation, the bones were those of a male and female; and a quantity of long, black hair, in a matted state, found at the head of one set of these bones, indicated that it had once covered and adorned the head of a female. These bones of the unknown dead were suitably cared for by our Superintendent, who had them buried in a grave in the Field of Ephron; and it is the intention of the Commissioners to procure a slab, with a suitable inscription, to mark the spot where they are deposited. To whom, or to what manner of persons these bones once belonged; by what ties bound to life or to each other; or by what disease they came to their death; or when, or why buried thus solitarily upon this hill, are questions which probably no one now living can answer. It is matter of reasonable conjecture, however, that, as this hill was a part of the land which many years ago was owned by the town of Roxbury, and as it was formerly customary in this place to remove persons visited with small-pox from their families and from the neighborhood of human habitations, it is possible that the top of this hill may have been the site of some rude hospital for the reception of those suffering under this disease. And here it may be these twain, after having passed the many or the few "wearisome days and nights appointed to them," under the ravages of this dire malady, sunk into a hasty grave near the place of their death; little dreaming that around them should be gathered, in crowding ranks, the dead of other generations, to rise together with them at the call of Him who is the RESURRECTION AND THE LIFE.

11. CEMETERY DEBT. Since their last Annual Report, the Commissioners have reduced the debt incurred in the purchase of Cemetery land, by the payment of \$5,000, which, added to the sum of \$15,894.67, before paid, amounts to \$20,894.67. This leaves a balance of \$16,000 yet unpaid.

13. While the Commissioners have occasion, as in former years, to record their indebtedness to the City Clerk and Treasurer, and also to their Superintendent, Mr. Brims, it is matter of deep regret to them in relation to the latter, that the state of his health compels him to withdraw from the important trust which he has so successfully discharged. Mr. B. has been most pleasantly associated with the Commissioners from the first, in carrying out their plans and wishes in relation to Forest Hills.

All the labor there performed has passed under his eye, and the results now reached, which are matter of just congratulation and pride, are in no small degree traceable to his fidelity and taste. Mr. B. will carry with him the hearty wishes of the Commissioners for his health and happiness.

14. DECENNIAL REVIEW. It is now nearly ten years since the first purchase of land for Forest Hills was consummated, and its consecration, by interesting and appropriate services, as a burial place for our dead. During these ten years 3,064 interments have been made within these grounds. There have been erected by the owners of private lots 250 monuments, besides three times that number of slabs, scrolls and other monumetal devices. Fifty-two tombs have been constructed; 424 lots have been enclosed with iron fences, and fifty-three with hedges.

It would be superfluous to speak of the beautiful adaptation of Forest Hills to its consecrated end, which the hand of taste and skill during these first ten years of its history has so fully developed. And the *importance* of the enterprise, no voice could so impressively declare, as that of its three thousand freshly tenanted graves. And as the stricken heart, drawn to this spot by the memory of its griefs, has lingered to drop its tribute of affection over the sleeping dust of its garnered treasures, there has often arisen with its bitterness the feeling of gratitude for the shaded recesses and the suggestive beauties of this Garden of Graves.

Such is the record of the first decennial period in the history of Forest Hills. The second, which will make still further changes in this consecrated spot, will also greatly enlarge the circle of interest which shall gather around it. In the language of the eloquent address at the consecration of the grounds, and with a more than "half consciousness" of its fearful import, we may repeat the rising thought, "whence shall come those, who shall fill these narrow chambers, and sleep beneath these marble records?" but it is well that we may not foresee the future. It is sufficient to be assured that all that can be done to rob the grave of its repulsiveness, and secure a peaceful rest for that which is mortal of our households, is done at Forest Hills.

ALVAH KITTREDGE,

Chairman of the Commissioners of Forest Hills Cemetery.

In addition to An Act relating to a Public Cemetery in the City of Roxbury.

Be it enacted by the Senate and House of Representatives, in General Court assembled, and by the authority of the same, as follows :

SECT. 1. The board of commissioners of the rural cemetery in Roxbury, elected by the city council, pursuant to an act approved March 24, 1848, are authorized to take and hold any grant, donation or bequest of property, upon trust, to apply the same, or the income thereof, for the improvement or embellishment of the said cemetery, or for the erection, repair, preservation or renewal of any monument, fence or other erection, or the planting and cultivation of trees, shrubs or plants, in or around lot, or for improving the said premises in any other manner or form, consistent with the purposes for which said cemetery is established, according to the terms of such grant, donation or bequest. And whenever a grant, donation or bequest, or any deposit shall be made by the proprietor of any lot in said cemetery, for the annual repair, preservation or embellishment of such lot and the erections thereon, the said commissioners may give to such proprietor, or his representative, an agreement or obligation, in such form and upon such terms and conditions as they may establish, binding themselves and their successors to preserve and keep in repair said lot forever, or for such period as may be agreed upon.

SECT. 2. Any sums of money, so received by said commissioners, shall be invested by the city treasurer of Roxbury, under the direction of said commissioners, in public stocks or mortgages of real estate, and all such property, received under the provisions of the foregoing section (unless other provision is made by the terms of any such grant, donation or bequest), shall be made under the charge of said city treasurer, but shall always remain separate from and independent of any other moneys or property belonging to the city of Roxbury, and free from the control of the city council. And the income of such fund, or funds, shall be received by said treasurer, subject to the order of said commissioners, and shall be appropriated by them in such manner as shall in their opinion, best promote the purposes for which said grants, donations, bequests or deposits are made.

SECT. 3. The city of Roxbury shall be responsible for the good faith of said commissioners, and the treasurer of said city, in the execution of any trust which they may assume pursuant to the foregoing provisions. But said commissioners shall not be liable to make any renewal or reconstruction of any monument, or other erection, on any lots in said cemetery, unless such liability shall be expressed in the agreement given by them as aforesaid, or in the terms and conditions under which they accept any grant, donation or bequest.

SECT. 4. This act shall be void, unless the city council of Roxbury shall accept the same, at a meeting of said council called for that purpose, within thirty days after its passage.

SECT. 5. This act shall take effect from and after its passage. [*Passed Feb. 25, 1852.*]

[Accepted by the City Council, March 8, 1852.]

City Document.—No. 6.

REPORT
OF THE
COMMITTEE ON THE FIRE DEPARTMENT,
ON THE PART OF THE
BOARD OF ALDERMEN,
ON THE
Address of His Honor the Mayor,
TO THE
CITY COUNCIL,
ON THE 15TH OF MARCH, 1858.

ROXBURY :
L. B. & O. E. WESTON, PRINTERS, GUILD ROW.
1858.

CITY OF ROXBURY.

IN BOARD OF ALDERMEN, April 19, 1858.

ORDERED, That 500 copies of the Report of the Committee on the Fire Department, on the Address of His Honor the Mayor, be printed for the use of the City Council and the Firemen, under the direction of the Committee on Printing.

JOSEPH W. TUCKER, *City Clerk.*

City of Roxbury.

IN BOARD OF ALDERMEN, April 19, 1858.

The Committee on the Fire Department on the part of this Board, in relation to the communication of His Honor the Mayor, addressed to the City Council, on the 15th of March last, submit this additional

R E P O R T :

THE Committee, while they believe that a majority of the members of the Department are good firemen, are satisfied that those evils referred to in the Communication, and others not mentioned, exist to a greater or less extent in all the Companies. The prominent evils are these :

Disorderly members, frequently of intemperate habits, and sometimes of bad character ;

Violation of rules and regulations ;

The volunteer system ;

The arrangement by which the pay of the Firemen is drawn by the Clerks of the Companies, and used as a common fund, for purposes other than useful.

Your Committee, in common with the other members of this Board, and of the citizens generally, entertain great respect for the useful members of the Department. Their arduous services are worthy of all praise, and are fully appreciated by the Committee. It is wrong that such men should be obliged to associate with men of an inferior stamp, and it is equally wrong that good men should be

prevented from joining the Fire Companies, through fear of being associated with vicious, intemperate or disorderly members. Each fireman should have the privilege of using his pay in his family, or for his support, without being surrounded by associates who will ridicule him for so doing.

Temperate habits and good character should be made prominent qualifications for membership. Men with these qualifications can be obtained, and it is the right of the citizens that none but such men should occupy a place in the Department.

Your Committee believe that sufficient attention has not been given to these essentials. They also believe that an explicit avowal to the Board of Engineers, as to the wish and expectation of this Board on this subject, will cause greater care to be taken in the future, and by the exercise of that care, the character and standing of the Department will be elevated, and other beneficial results will surely follow.

The Firemen are paid for their services, not a large compensation, it is true, but enough to distinguish our system from a volunteer system. And yet some of the worst evils of the latter exist; and if we must have these, would it not be better to return to that system at once, and save the large amount annually expended for compensation of members. The Engine Companies consist of forty members, a force often subjected to very hard work, especially at large fires. The members are assisted by volunteers, and the services rendered are often valuable; but the system is very objectionable, for reasons suggested by the Mayor, and also for others.

The character of the volunteers is determined pretty accurately by the character of the members. Dissolute young men, hanging about an engine house, "equally ready for a run with the engine, a drunken frolic, or a row," indicate with considerable certainty the general character of the Company.

Your Committee are of opinion that the Companies should be held responsible for those who visit their houses habitually, as they can decide who shall be admitted, and who not.

The regulations of the Board of Engineers prohibiting the members from taking their engine out of town, should be fully explained to the Firemen, and then rigidly enforced. Your Committee are aware that the temptation to cross the lines to neighboring towns, when a fire is in sight, is a hard one for firemen to resist; and the zeal that urges men to rush to save from destruction the property of the inhabitants of such towns, would be commendable, did it not involve the total neglect of the property of our own citizens, which the Firemen are paid to protect. The importance of this matter is not overstated.

At the fire on the Bussey estate, on the 3d instant, in West Roxbury, all the Roxbury engines were present.

In view of these existing evils, the important question is, What is the remedy?

The Committee believe it to be with the Aldermen. It is this:

Disband those Companies in which these evils are most prominent, and organize new Companies, readmitting such of the old members as possess the requisite qualifications, and supplying the place of the others with men of the right stamp. No good Fireman can fairly object to this course, and the objections of others are of no consequence.

The practice of singling out members now and then and discharging them from the Department for disorderly conduct, when others just as bad remain, is objectionable. It necessarily produces irritation amongst the Firemen, and is regarded as partial.

The Committee believe the true way, when the evils are great and numerous, is to abolish this practice, and dis-

charge by Companies, without censure of individuals; to reinstate the valuable members, and supply the place of others by better men.

Your Committee recommend that Warren Engine Co. No. 1 be disbanded, and that, when it shall be deemed advisable to organize a new Company, that the Board of Engineers be instructed to select members possessing the qualifications herein before mentioned. The Committee also recommend that henceforth the Firemen draw their pay directly from the City Treasurer, who has expressed his willingness to perform the service of paying them separately.

And, in conclusion, your Committee recommend the adoption of the accompanying order.

W. S. LELAND,
SAM'L PEARSON,
U. T. BROWNELL.

City of Roxbury.

IN BOARD OF ALDERMEN, April 19, 1858.

ORDERED 1st, That Warren Engine Company No. 1 be disbanded, and the members discharged.

ORDERED 2d, That the Chief Engineer take charge of the Engine and apparatus forthwith.

ORDERED 3d, That the pay of the members be continued to May 1st next.

Report accepted, and Order adopted by a unanimous vote, as follows, to wit: Ald. LELAND, CLAPP, LEWIS, PEARSON, NOYES, BROWNELL, SHURTLEFF, and HARMON voting in the affirmative.

JOSEPH W. TUCKER, City Clerk.
